## SUNGARD OFFICES, ADDINGTON

***Winning a Canterbury Award for Commercial Architecture in the 2008 NZIA Resene Local Awards, is Sheppard and Rout's design for SunGard - a global leader in software and processing solutions for the financial services market.***

**Auckland, February 10th, 2009 – When an enterprising developer saw an opportunity in SunGard and wanted to pitch his site over other contenders, he teamed up with Sheppard and Rout and ArchiCAD to get in quick, get the job done fast, and above all, make an impressive design statement.**

*"This was one of those jobs that just had to be done fast! It was rush, rush, rush from the word 'Go!',"* says Jasper van der Lingen of Sheppard and Rout Architects Ltd.

*"I've been with practices using 3D CAD for many years, and can remember how painfully slow it was in the eighties, and how, if you wanted to do something well, you had to use specialists"* continues Jasper: *"But with ArchiCAD, it never fails to impress how easy it is to put an initial 3D presentation together — quickly, and professionally — I don't think it took us much more than a week. It wasn't just our designs that won us the job, it was our ability to clearly convey them to the client using ArchiCAD"* concludes Jasper.

### About Sheppard and Rout Architects Ltd

Sheppard and Rout Architects is a design-based practice that strongly believes in providing tailor-made solutions to an individual client's needs.

### About Graphisoft

Graphisoft is the pioneer and leader in developing Virtual Building™ solutions. It is widely acknowledged as the world's #1 supplier of model-based software and services for the building industry. Our clients are at the forefront of the industry - delivering projects that are better designed, more predictable to construct and less expensive to operate.

Graphisoft and ArchiCAD are registered trademarks of Graphisoft. All other trademarks are property of their respective owners.
